WHOLESALE PEONY PRICES — 1923

OUR Peonies are grown under good soil conditions and are free from diseases. You will find few, if any, of varieties listed of questionable value for our collection is the result of years of observation and study of the best varieties. On this account and because we carefully rouge out all "off type" plants we can assure our purchasers of stock true to name.

Please note we furnish 3 to 5 eye divisions only. This protects your investment with quality at quantity prices.

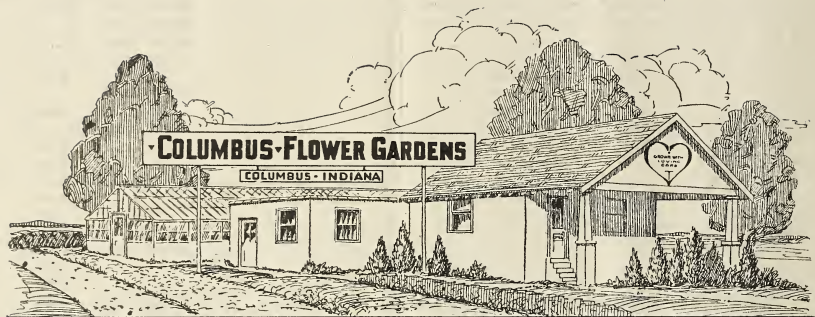

The 1921 American Peony Society Symposium rating, together with the Originators' name and a brief description, accompany each variety name with prices. Varieties * are considered good commercial sorts.

Quotations are for Fall Delivery. We do not ship Peonies in the Spring.
